PRESS RELEASE

Achim Berg becomes new Chairman of the Advisory Board at One Data

Software company relies on top-class digitalisation expert for next growth step

Passau, Munich 18 February 2025 - Software company One Data today announced that it has appointed Achim Berg as the new Chairman of the Advisory Board. The company is thus strengthening its management team with one of the most renowned experts for growth through digitalisation. Achim Berg succeeds Benedikt von Schoeler, under whose chairmanship One Data has developed into Europe's leading software company in the field of data product management.

"One Data is revolutionising data management and offers companies the key to harnessing the value of data in an automated way and efficiently using future technologies such as AI, business intelligence and process mining. At a time when intelligent data management is an absolute prerequisite for the future competitiveness of any organisation, One Data has carved out a unique position for itself. The ability to quickly and efficiently transform data into valuable products is crucial for the digitalisation of many industries. I am looking forward to using my expertise to provide One Data with strategic advice in this exciting phase and to accompany the company on its international growth path", says Achim Berg, who has previously held positions such as CEO of T-Com and Bertelsmann, CEO of Microsoft Germany and President of the digital association Bitkom.

One Data has developed a unique selling point in the field of intelligent data collection and processing: With its Data Product Builder, the company offers a software solution that makes a significant contribution to mastering the challenges of modern data processing. It also enables companies to integrate data more quickly and profitably into all business and AI-driven applications.

"Achim has driven the digital transformation and growth of technology companies like no other. We are therefore delighted to have gained one of the most renowned experts for growth through digitalisation. His many years of experience and international network will help us to further expand our position as a leading provider of data product management software and to develop in the best possible way. At the same time, I would like to sincerely thank our previous Advisory Board Chairman Benedikt von Schoeler: under his chairmanship, we have developed into Europe's leading software company in the field of data product management and successfully completed an extended Series B financing round. I am delighted that Benedikt will continue to drive forward the market positioning of One Data as a member of the advisory board and strategic advisor", explains Dr Andreas Böhm, founder and managing director of One Data GmbH.

Future prospects for One Data

In the middle of last year, One Data closed an extended Series B financing round of 32 million euros to drive its expansion. The investors, including Vsquared Ventures, Molten Ventures and HV Capital, are supporting the company in further developing its first software solution for data product management and opening up new markets. Customers such as BioNTech, thyssenkrupp and SCHOTT already rely on One Data's technology to use their data efficiently and optimise their processes.

Background:

In addition to advisory roles for leading global companies such as General Atlantic, Achim Berg is a member of the supervisory board of several companies focussing on disruptive technology and software companies and an excellent expert on the European tech start-up community and the private equity scene. In addition, Achim Berg has held various top management positions at Allianz, Microsoft, Deutsche Telekom, Siemens and Dell, among others. He is also former President of the German Information and Telecommunications Industry Association BITKOM and former Vice President of the Federation of German Industries BDI.

In addition to Achim Berg, Benedikt von Schoeler (General Partner at Vsquared Ventures), Nelly Markova (Partner at Molten Ventures), David Kuczek (General Partner at HV Capital), Prof Dr Andreas Pfeifer (Business Angel), Isabelle Müldner (Investment Manager at Salvia) and Dr Andreas Böhm (Founder and Managing Director of One Data) are members of the One Data Advisory Board.

About One Data

One Data is a German software company and a European leader in the field of data product management. Founded by Dr Andreas Böhm in 2013, the company employs around 200 people in Passau, Munich, Frankfurt am Main and Berlin and offers the first available Data Product Builder, which was specially developed for innovative and collaborative data teams. It enables users to create comprehensive data products, drive a data-driven culture and realise the full potential of data. The data products created in One Data transform raw data into actionable insights and enable companies to make informed decisions, optimise processes and drive innovation. The Data Product Builder streamlines the development process, shortens time-to-market for data products, ensures scalability and flexibility in processing different data sources and unlocks the value of data assets in a more efficient way. Through a marketplace for data products, One Data also breaks down data silos and creates a central interface for data-based collaboration and seamless data exchange across all areas. One Data focuses on bridging the gap between data experts and business users by enabling everyone in the organisation to efficiently create, manage and share data products. The result is, among other things, more stable supply chains, more accurate forecasts, faster R&D processes and more efficient data teams.
