

One Data Expands C-Level with Renowned Technology and Go-to-Market Experts: Tim Dickemann and Christian Stadlmann join the Management Team

Passau/Munich, April 30, 2025 – Software company One Data is restructuring its management team: As of May 1, 2025, **Tim Dickemann** will take on the role of **Chief Customer Officer** (CCO), and **Christian Stadlmann** will become **Chief Revenue Officer** (CRO), assuming two key leadership positions. With this expansion of its C-level leadership, One Data aims to accelerate the integration of intelligent data management and artificial intelligence (AI).

AI-Ready Data as the Key to Value-Driven AI

“Tim and Christian not only bring outstanding technological expertise but also comprehensive management experience from various leadership roles. Particularly noteworthy is their know-how in developing and implementing successful innovation and growth strategies. Both also share our vision of a data-driven, intelligent enterprise. I’m thrilled to have them on board as we work together to enable companies to scale more quickly and effectively with intelligent data management and AI, and to transform entire industries,” says **Dr. Andreas Böhm**, founder and CEO of One Data.

Founded in Passau, One Data has established itself as a leader in intelligent data management. Its Data Product Builder is a software solution that significantly helps tackle the challenges of modern data processing. It enables businesses to integrate data more rapidly and profitably into all business and AI-driven applications.

Tim Dickemann Appointed Chief Customer Officer

“One Data’s mission to empower companies to become smarter and more efficient through data, AI, analytics, and automation truly excites me. I’m looking forward to contributing my experience in digital transformation and automation to help advance this vision,” says Tim Dickemann, CCO at One Data.

Tim Dickemann brings extensive experience in intelligent automation, artificial intelligence, and operational excellence. He began his career at the Boston Consulting Group, where he spent six years advising global companies on digital and transformation strategies. In 2018, he founded the automation company AKOA, which he successfully built up and sold to Roboyo after three years. At Roboyo, he held various leadership roles, including **Chief Business Officer for the DACH region** and **Head of Operational Excellence** at the corporate level. In these roles, he was responsible for executing global digitalization projects, developing scalable processes, and overseeing a revenue volume of around €30 million. He was also involved in Roboyo’s strategic direction as a member of the supervisory board.

Christian Stadlmann Takes Over as Chief Revenue Officer

“Sustainable growth comes from strong customer relationships and data-driven decision-making. In One Data, I’ve found the perfect partner to realize this vision,” explains Christian Stadlmann, CRO at One Data.

Christian Stadlmann has over 25 years of experience in the software and technology sector, with a focus on sales, business development, marketing, and strategic growth. Most recently, he served as **Chief Revenue Officer** at Anyline, where he played a key role in driving international growth. Before that, he spent seven years as **Senior Vice President of Global Sales** at Aurea Software. Earlier in his career, he held roles including **Chief Sales Officer** at update software AG and Sales Manager at Hyperwave. His expertise lies in SaaS business models, enterprise software, and building high-performing international sales teams.

In addition to Tim Dickemann and Christian Stadlmann, the management team of One Data GmbH includes **Dr. Stefan Roskos, Chief Strategy & Business Development Officer** (CSO/CBDO), and **Dr. Gregor Wiest, Chief Financial & Operating Officer** (CFO/COO). In February 2025, **Achim Berg** – former T-Com board member, president of the digital association Bitkom, and head of Microsoft Germany – was also appointed as the new chairman of the advisory board. Other members of the advisory board include Benedikt von Schoeler (General Partner at Vsquared Ventures), Nelly Markova (Partner at Molten Ventures), David Kuczek (General Partner at HV Capital), Prof. Dr. Andreas Pfeifer (Business Angel), Isabelle Müldner (Investment Manager at Salvia), and Dr. Andreas Böhm (Founder and Managing Director of One Data).

About One Data

One Data is a German software company specializing in data product management. Founded by Dr. Andreas Böhm, the company employs over 150 people from more than 30 nations across four offices.

One Data empowers business and data teams to collaboratively build and manage data products across their entire lifecycle. Its platform, the Data Product Space, transforms fragmented data into trusted, AI-ready products that drive real business value. By supporting every stage of the data product lifecycle – from discovery to scale – One Data helps organizations gain insights faster, reduce costs, and improve governance. With seamless integration into existing data stacks and built-in features for quality, compliance, and automation, it breaks down silos and builds trust in data. One Data bridges the gap between data experts and business users, empowering everyone to build and share data products efficiently. The result: more resilient supply chains, faster R&D, more accurate forecasts, and stronger data teams.
